Panel Discussion – Robotics	
2:50 pm	<p>Moderator: James Savage, Partner, Hendale Capital</p> <p>Panelists: Rocky Lee, Asia Managing Partner & Head of Greater China, Cadwalader, Wickersham & Taft James Chan, Vice President (International), GreyOrange Denis Tse, Executive Director, MaxNerva</p> <ol style="list-style-type: none"> 1. What is happening in robotics in Asia? 2. Is Asia playing a leading role globally? 3. What are going to be the major technology advances in robotics over the next five years? Are robots going to learn? 4. How is this going to affect our lives and the industries we work in? Are we going to have them in our homes in five years? 5. What are the robotics unicorn looking for in the way of M&A?
Panel Discussion – Healthcare	
3:40 pm	<p>Moderator: Judith Li, Partner, Lilly Asia Ventures</p> <p>Panelists: Henry Chen, Founder & Managing Partner, Delos Capital Dr. Benjamin Li, CEO, Lee's Pharmaceutical Holdings Dr. Xueming Qian, Founder, Chairman & CEO, MabSpace Biosciences Lawrence Wang, Managing Director, Vivo Capital</p> <ol style="list-style-type: none"> 1. The IPO market for healthcare has been tumultuous over the past year — great exuberance in 1H2015, followed by a market correction in 2H2015. What is the outlook for 2016? 2. Cross-border deals are the topic du jour for companies and funds alike. Virtually every healthcare fund now claims to have some sort of cross-border angle and some are even raising dedicated funds. 3. To do cross-border deals one must have cross-border talent — is this easier said than done? 4. Immune-oncology was Science magazine's 2014 breakthrough of the year and has created billion dollar companies in the US. Is this sector now overheated?

Panel Discussion – Blockchain															
4:30 pm	<p>Moderator: Melissa Guzy, Co-founder & Managing Partner, Arbor Ventures</p> <p>Panelists: Darren Camas, CEO, BitNexo Dr. Joseph Wang, Chief Scientist, Bitquant Research Laboratories Maarten Hartog, Senior Manager, Corporate Treasury Advisory, KPMG China Han Verstraete, Founder & CEO, Otonomos Jehan Chu, Director, Vermillion Art Collections</p> <ol style="list-style-type: none"> 1. What is the current status of blockchain technology? 2. How does it optimise banking and financial industries? 3. Regulation of cryptocurrencies 4. What are the applications that we see emerging in 2016? 														
5:20 pm	Keynote Bill Barhydt , Founder & CEO, ABRA
